

BROKER OPT-IN INSTRUCTIONS

To automate the process of adding your listings to the system, Breakthrough Broker LLC utilizes ListHub, a free service that assists with listing syndication on the web. Following these directions will enable your property information to become available in Breakthrough Broker. We use this property data to create your auto-generated AMP email with marketing items for your listings and Facebook ad campaigns, as well as allow our Breakthrough Broker Plus members to create marketing using the MLS Lookup tool.
